"Seagen" Marine Tidal Turbines

by

Matthew Reed

Marine Current Turbine Ltd

Tidal currents in deep seas of the world yield exciting new opportunities to generate renewable energy.

This talk focuses on the technical challenges involved with the design and operation of such machines.

Tuesday 17th November 7.00pm

Harrison Building, Lecture Theatre 04

University of Exeter, EX4 4QF

Attendance is FREE and ALL are welcome

Tea coffee provided, from 6.30pm, in Harrison Building Foyer.
